**Notes:**

- 1) signagelive is a Software-as-a-Service application and attracts an annual licencing fee as outlined in the table above. After the first year, the annual cost is reduced as shown however to benefit from the cost incentive of the 2 year extension<sup>†</sup>, this must be purchased at time of original licence purchase, i.e. SLL-SWL-1 + SLL-SWI-EXT2 together.
- 2) signagelive observes a fair usage policy of 1GB per month per device. If 1GB is exceeded on a regular basis Remote Media reserve the right to invoice for additional usage.
- 3) The Virtual Player is aimed at SMIL compatible hardware with web access capabilities. Please contact us before you purchase your SMIL hardware to check for compatibility.
- 4) Pricing is based on volumes of up to 100 licences. Please contact us to obtain project pricing if you require more than 100 licences.
